

No.	Name product & services
FLUID CLEANLINESS ANALYSIS	
1	Oil cleanliness class evaluation Complete analysis includes: - gravimetric analysis - granulometric analysis - water content evaluation - microscopic analysis according to international standards and internal laboratory procedures
2	Water content in oil evaluation with Pall WS19 sensor
3	Oil granulometry and water content analysis with PFC400
4	Oil granulometry and water content evaluation with PCM500 + water sensor
5	Oil gravimetric and microscopic analysis
6	Microscopic water analysis of water
7	Grease cleanliness analysis
8	Simulation of fluid filtration in several steps
9	Silt density index (SDI) measurement
COMPONENT CLEANLINESS ANALYSIS	
1	Component cleanliness evaluation Complete analysis includes: - gravimetric analysis - granulometric analysis - microscopic analysis according with international standards and internal client procedures
2	Contaminant extraction procedure (when clients' internal working procedure is missing)
ON-SITE SERVICES	
1	Pall PCC extraction cabinet commissioning
2	Pall PCC extraction cabinet calibration
3	Pall PCC extraction cabinet diagnosis
4	Pall PCC extraction cabinet operator training
5	Pall oil purifier commissioning
6	Pall oil purifier maintenance
7	Pall oil purifier diagnosis
8	Pall oil purifier operator training
9	Mobile filtration unit commissioning
10	Mobile filtration unit maintenance
11	Mobile filtration unit diagnosis
12	Mobile filtration unit operator training
13	Oil cleanliness class evaluation - on-site, with mobile filtration kit
14	Oil cleanliness class evaluation - on-site, with mobile automatic particle counter
15	Oil sampling
16	Correct oil sampling procedure training
17	Repair of used components, pumps, fans, inverters etc.
18	Air particle measurements, clean rooms, chemical niches, production and assembly areas

No.	Name product & services
19	Air filtration validation
20	Filtration process consultancy
21	Principles of filtration training
22	Mobile filtration unit rental
23	Oil purifier rental
24	Mobile particle counter rental
25	Water in oil sensor rental
26	On-site testing with mobile filtration unit
27	Filtration system installation and assembly
28	Automatic particle counter (scanner) commissioning
